www.lancasterag.com

Lancaster Ag is ready to help you with your sustainable and organic farming operations by offering our products, services, programs, and education. We would love to hear from you; whether it is face-to-face at one of our barn meetings, via e-mail, or when you call us at our Call Center.

See pages 2 & 3 to become acquainted with our Call Center staff members and Customer Service personnel. Please read about our quality products and varied services on the inside front cover.

In 2012 we have chosen to conserve financial and natural resources by making this catalogue product-driven. Our products can be easily located in seven color-coordinated sections. They are also listed alphabetically in a handy product index in the back. Past catalogues have included essays and educational information. We encourage you to save them, and also future catalogues, as valuable references
